

Health and Safety Procedures

During these difficult and unprecedented times, we are dedicated to providing a safe and secure area for the upcoming 2020-2021 school year, following the safety guidelines for COVID-19 implemented by the state of Texas. Our priority remains the safety of our staff, the faculty, and the students. We are closely monitoring the guidelines and plan to offer a safe space in the services we provide. Following those guidelines, we will check and train our staff daily, as more information is released by the CDC and the state of Texas on the rules for sanitation, which include:

- A daily screening process that includes a temperature and symptom check upon arrival at the designated entry.
- Once at work, employees will follow the best health practices for the workplace, including social distancing to do our best to provide contactless service.
- Face coverings (masks and shields) and gloves will be required at all times, while regularly washing and sanitizing our hands, which is a proven way to help slow any spread.
- We have a robust plan for cleaning and disinfecting all work and common areas before, during, and after our services.

We thank you for your support and cooperation during these challenging times. The health of the staff and the students will always remain at utmost importance. We will stay up to date on how to best provide a sanitary workplace, while still providing and keeping the quality of our food and services at the standard that we have maintained throughout the years.

School Lunch Plan 2020-2021 School Year

Through these difficult times, we are committed to still providing fresh and delicious lunches while maintaining the safety guidelines put in place by the CDC and the state of Texas. All children will still be able to receive school lunches from E&E Food Services through pre-orders. All food will be made the same day, ensuring its freshness and keeping the high quality in our services.

- All parents and students will have access to myschoolaccount.com, where they can view our lunch menu and place a pre-order. They must be made no later than midnight the day before the lunch is needed. More information on accessing your account on myschoolaccount.com will be released the last week in August.
- These pre-packaged orders will be ready by lunch time each day and will be dropped off in a designated area.

We thank you again for your continued support as we navigate through this time, and as more information comes out, we will continue to adjust as needed.
