

Preventions for back to school

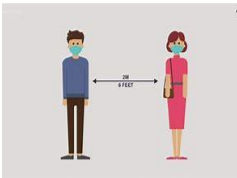

Temperatures:

E&E Food Services, will be checking temperatures and other symptoms for all the employees before starting work daily.

Face Masks & Hand Hygiene:

E&E food Services, employees will be washing their hands with soap and water frequently, and wearing gloves at all the times. They would also be wearing mask and face shields during work hours.

Social Distancing:

E&E Food Services employees, should stay at least 6 feet apart from the others. To prevent spread of the virus or avoid being infected.

Cleaning and Disinfecting:

E&E Food Services, should follow all guidelines of the CDC. Properly disinfect and sanitize working areas at all times.
